

Plastic cutter for cutting holes in polystyrene EPS

WK-FT

dimensions $\varnothing 66.7$ mm

Specifications:

- Plastic cutter for cutting holes in polystyrene EPS insulation material for insertion of polystyrene EPS disc
- Controlled cutting depth, thrust collar with a diameter of 90 mm.

Polystyrene disc [white, graphite]

KS, KSG

dimensions $\varnothing 67 \times 17$ mm

Specifications:

- Polystyrene disc [white, graphite] for covering up work holes in polystyrene - installation immersed mount.

Metal cutter for mineral wool

WK-FM

dimensions $\varnothing 64$ mm

Specifications:

- Metal cutter for drilling of holes in mineral wool for immersed mount of fasteners.
- Controlled cutting depth, support collar of 95mm in diameter.

Mineral wool disc

EDMW

dimensions $\varnothing 67 \times 17$ mm

Specifications:

- Mineral wool disc, density 130 kg/m³.
